

Sentry® Radiant Tube Heater

The L.B. White Sentry® is the only radiant tube heater designed specifically for pig houses. With its advanced reflector and pressurized burner design, the Sentry® delivers maximum heat distribution, as well as even heat down the length of the tube. With interlocking tubes and self-leveling hangers included as part of a complete installation kit, the Sentry® is extremely easy to install and even easier to maintain. The Sentry's ability to use fresh air from an attic helps it run cleaner and require less maintenance.

L.B. White has perfected every aspect of our Sentry® radiant tube heater which is designed to withstand the harsh environments of swine facilities. This has led to our reputation for reliability, durability and serviceability in the field.

- ✓ Stainless steel burner box
- ✓ Choose from all aluminized or Stainless steel tubes
- ✓ Positionable shroud

TORCHMAN & BERTHA Handheld Torches

If you're looking for versatile torches that deliver performance and value, L.B. White's portable, lightweight Torchman and heavy-duty Bertha torches provide a great solution for a wide variety of spot heating needs

Perfect for burning brush, thawing pipes, melting ice and other similar heating applications, Torchman and Bertha torches offer durable steel construction along with a choice of heat outputs, handle lengths and fuel types.

- ✓ Models from 200,000 Btuh to 500,000 Btuh
- ✓ Only 5 to 7 lbs.
- ✓ Throttle valve to adjust output
- ✓ No regulator needed (Torchman)

SMART SENSE® Automatic Variable Rate

NEW TECH! SAVES MONEY!

Smart Sense® is a technologically-advanced swine facility heating solution. This **innovative heating technology** eliminates the inefficiency of standard on/off controls by managing the heat automatically through the house control. Smart Sense® operates at maximum efficiency to provide:

- ✓ Fuel-cost savings up to 35%
- ✓ Consistent room temperature
- ✓ Enhanced animal welfare
- ✓ Improved air quality

The L.B. White® system generates only the amount of heat required to reach, maintain, and hold a desired temperature by modulating Btu output. This is achieved only through our patented technology engineered for L.B. White® forced air heaters and radiant heat brooders.

Works with a wide range of house controls that offer a 0-10 volt signal.

CLASSIC™ Forced Air Heaters

SIMPLE TECH.

L.B. White Classic heaters are designed with easy installation, reliable performance and low maintenance in mind.

- ✓ Range of models from 60,000 Btu/h to 115,000 Btu/h
- ✓ Highly efficient, pilot light design
- ✓ Choice of propane or natural gas
- ✓ Exclusive Tri-Shield case protection
- ✓ Versatile indoor mount options

In addition, each L.B. White Classic comes equipped with eyebolts and chains for easy hanging. And all L.B. White Classic heaters are available in CSA U.S. and Canada certified models.

Unprecedented 3-Year Warranty

L.B. White is now offering a three year warranty on HSI and Spark Ignition Guardian® Forced Air Heaters placed in new swine houses. In order to take advantage of this great offer, please register your heater on our product registration page at <https://www.lbwhite.com/customer-care-center/registration-info>.

GUARDIAN® 2.0 Forced Air Heaters

TRIED AND TESTED!

The L.B. White Guardian's time proven direct-fired design provides consistent, dependable heat for a range of swine production environments from gestation all the way through finishing.

CSA U.S. and Canada certified, Guardian heaters feature:

- ✓ 60,000 Btu/h to 325,000 Btu/h
- ✓ Spark, Hot Surface or Pilot Light Ignition
- ✓ Tri-Shield or galvanized case finish
- ✓ Highly efficient, direct-fired design
- ✓ Variable heat output
- ✓ Advanced Service Saver™ diagnostic feature
- ✓ Indoor and outdoor installation options

I-SERIES Radiant Heaters

MOST EFFICIENT HEAT.

The I-Series unique design delivers more radiant energy to the ground than other heating solutions so you get a broader, more consistent heat pattern with less fuel. This means your pigs stay warm, so they eat more and grow faster. And you save money because you're providing better heating with less fuel.

Improved Productivity

Available in a range of models from 17,100 Btu/h to 40,000 Btu, spark or manual ignition configurations, and zone or individual control, the I-Series help you improve productivity and reduce time to market through:

- ✓ Better survival rates
- ✓ Better rates of gain
- ✓ Reduced piling
- ✓ Lower medical costs

Lower Fuel Costs

Beyond providing a healthier growing environment for your pigs, the I-Series can save you significant money on your energy costs – up to 40% depending on your facility and current heating solution. I-17 models deliver savings of 20 to 40% over other radiant and forced air solutions.

Most L.B. White heaters are certified by:
